INDEX TO VOLUME 5

	A	Page
Abrasion of steels.....		553
Absorption measurements, Duane's method.....		517
Absorption, sound, measurement of.....		957
Accelerated tests of asphalt.....		247
Acid, sulphuric, adsorption of, by leather.....		1109
Acree, S. F., A study of the method for titrating aldose sugars with standard iodine and alkali.....		1063
Addition agent, use of phenol in copper electrotyping solutions.....		767
Addition reactions of hydrocarbons, use in determining formulas of.....		86
Adhesives, further study of paper-coating minerals and.....		1189
Adsorbed films, thickness of.....		951
Adsorption of sulphuric acid by leather.....		1109
Aerodynamic data on cylinders.....		653
Aircraft beacon, use of, in blind landing.....		897
Aircraft, guidance of, to airport by use of tuned-reed visual indicator.....		897
high-frequency radio beam for blind landing of.....		897
instruments, use of, in blind landing by radio.....		897
landing of, in fog, by radio.....		897
navigation of, in fog, by radio.....		897
thermometers, thermographs, and barographs, lag of.....		695
2-course radio range for blind flying of.....		897
Airports, blind landing radio equipment for use at.....		897
location of blind landing radio apparatus at.....		897
means of finding and landing at, by radio.....		897
traffic control at, during fog.....		897
tuned-reed indicators for guiding aircraft to, in fog.....		897
Alloys, bismuth-lead.....		1085
fusible.....		1085
lead-tin.....		1085
type metal.....		1085
Anhydride, anhydrofructose and difructose, note on the individualities of.....		733
Anhydrofructose anhydride, note on the individualities of.....		733
Arc spectrum of Cr.....		775
Asphalt, accelerated tests of.....		247
Audio-frequency generator, use of, in radio station work.....		647
Audio-frequency measurement.....		237
B		
Ballif, P. S., H. T. Dryden and, The characteristics of two-blade propeller fans.....		185
Barographs, thermometric lag of aircraft.....		695
Bases, subway column, compressive tests of, strength of.....		619
Beacon, aircraft radio direction, for runway localization.....		897
high-frequency radio-beam type, for blind landing of aircraft.....		897
location of runway localizer types of, at airports.....		897
Beacon marker.....		897
Beam, directive radio, use of, in blind landing of aircraft.....		897
Bearing bronzes.....		349
Bearing, bronze, wear of.....		349
Bearing bronzes with phosphorus, zinc, nickel, and antimony addition.....		349
Bearing metal, sampling of.....		891
Bearing metals.....		349
Beat notes, use of, in frequency measurement.....		647
Beek, Jr., John, A study of the adsorption of sulphuric acid by leather.....		1109
Beij, K. Hilding, Seams for copper roofing.....		585
Bicking, George W., Leo W. Snyder, Merle B. Shaw and, The preparation of fiber test sheets.....		100

	Page
<i>Bickling, W., Martin J. O'Leary, Merle B. Shaw and, Further study of paper-coating minerals and adhesives.</i>	1189
<i>Binoocular v. monocular vision for comparing incandescent lamps</i>	1161
<i>Bismuth-lead alloys, properties of</i>	1085
<i>Bitner, F. G., Ronald Bulkley and, A new consistometer and its application to greases and to oils at low temperatures</i>	83
—, —, Surface tension of soap solutions and its relation to the thickness of adsorbed films	951
<i>Blum, W., R. O. Hull and, Addition agents in copper electrolytng solutions</i>	767
—, H. R. Moore and, Conductivity and density of chromic acid solutions	255
<i>Boeckner, C., Resonance and quenching of the third principal series line of caesium</i>	13
—, F. L. Mohler and, Effects of gases on photo-ionization of caesium by line absorption	399
—, Photo-ionization of caesium by line absorption	51
—, and F. L. Mohler, Photo-ionization of caesium vapor by absorption between the series lines	831
<i>Bogue, R. H., L. T. Brownmiller and, The X-ray method applied to a study of the constitution of Portland cement</i>	813
<i>Bolts, nuts and, note on the electrical resistance of contacts between</i>	575
<i>Brale, used in Rockwell machine</i>	19
<i>Bright, H. A., and G. E. F. Lundell, Determination of carbon in high sulphur by direct combustion</i>	943
<i>Brinell machine, brale used in</i>	19
<i>Brinell number, error of conversion into Rockwell number</i>	19
—, relation to tensile strength	19
—, relation to Rockwell number	19
<i>Bronze bearing metals with zinc, phosphorus, nickel, and antimony</i>	349
<i>Bronzes for bearings</i>	349
<i>Bruun, Johannes H., and Mildred M. Hicks-Bruun, The isolation of the isomers of hexame from petroleum</i>	933
<i>Brownmiller, L. T., and R. H. Bogue, The X-ray method applied to a study of the constitution of Portland cement</i>	813
<i>Bulkley, Ronald, and F. G. Bitner, A new consistometer and its application to greases and to oils at low temperatures</i>	83
—, —, Surface tension of soap solutions and its relation to the thickness of adsorbed films	951
<i>Bunting, E. N., Phase equilibria in the $\text{Cr}_2\text{O}_3\text{-SiO}_2$</i>	325
C	
<i>Caesium, effects of gases on photo-ionization of, by line absorption</i>	300
—, ionization by light between series lines	81
—, photo-ionization of by line absorption	51
—, resonance and quenching of the third principal series line of	13
<i>Calcium chloride, compound with d-glucose</i>	741
—, influence of, on optical rotation of sugars	741
<i>Calked seams, copper roofing</i>	585
<i>Calorie, mean</i>	411
<i>Calorimeter, saturation</i>	411
<i>Calorimeters for water and steam</i>	481
<i>Carbon content, determination of in high-sulphur steel</i>	943
<i>Carroll, Burt H., and Donald Hubbard, A comparison of resolving power and sensitivity of photographic plates with varying development</i>	1
<i>Case, N. P., A precise and rapid method of measuring frequencies from 5 to 200 per second</i>	23

	Page		Page
Films, adsorbed, thickness of.....	951	Hill, George C., Hugh L. Dryden and, Wind pressure on circular cylinders and chimneys.....	653
surface, thickness of, as deduced from surface tension measurements.....	951	Hoffman, J. I., and G. E. F. Lundell, The precipitation and ignition of magnesium ammonium phosphate.....	279
Finck, J. L., Mechanism of heat flow in fibrous materials.....	973	Hubbard, Donald, and Bert H. Carroll, A comparison of resolving power and sensitivity of photographic plates with varying development.....	1
Flock, Ernest F., A review of colorimetric measurements on thermal properties of saturated water and steam.....	481	Hull, R. O., and W. Brum, Addition agents in copper electrolytizing solutions.....	767
—, H. F. Stimson, N. S. Osborne and, A colorimetric determination of thermal properties of saturated water and steam from 0° to 270° C.....	611	Humphreys, C. J., Interference measurements in the first spectra of krypton and xenon.....	1041
Fire clays, mineralogical changes caused by some fundamental properties at several temperatures.....	213	Hunter, R. R., A method of measuring frictional coefficients of walkway materials.....	320
thermal expansion of.....	213	Hydrocarbons, determination of formula of.....	867
Flagpoles, wind pressure on.....	653	determination of molecular weights of.....	575
Flow tests at elevated temperatures.....	125		
Fog, directive radio beam for landing aircraft in.....	897	I	
instrument flying in.....	897	Ignition of magnesium ammonium phosphate, precipitation of.....	279
landing of aircraft in, by radio.....	897	Incandescent lamps, color temperature of.....	1161
navigation in, by radio.....	897	Indicator, dual type, for use on aircraft, giving horizontal and vertical guidance by radio.....	897
two-course double modulation radiobeacon for landing aircraft in.....	897	fog landing beam.....	897
use of tuned-reed indicators, for guiding aircraft in.....	897	runway localizer, zero center type.....	897
Formula of a hydrocarbon, determination of.....	867	tuned-reed type, for guiding aircraft on runway localizer radiobeacon course.....	897
Freezing point of nickel.....	1309	visual, for reception of radiobeacon signals.....	897
French, H. J., William Kahlbaum, and A. A. Peterson, Flow characteristics of special Fe-Ni-Cr alloys and some steels at elevated temperatures.....	125	Insulation, thermal.....	385
Frequency measurement, radio-frequencies... measurements of.....	647	Intensity measurement of X rays.....	597
standard, use of, in radio station measurement.....	237	Interference measurements in the first spectra of krypton and xenon.....	1041
Friction, coefficient of fabrics.....	647	Inulin, difructose anhydrides in.....	1151
Fusible alloys.....	243	hydrolysis of.....	1151
	1085	molecular weight of.....	1151
G		Ionization chamber, portable.....	567
Gases, effect of, on photo-ionization of caesium by line absorption.....	390	standard, an improved form of.....	567
Geiger tube electron counter.....	115	chambers, field correction in.....	567
Generator, audio-frequency, use of, in radio station measurement.....	647	of caesium by light between series lines.....	831
Gilliland, T. R., Kennelly-Heaviside layer height observations for 4,045 and 8,650 kilocycles.....	1057	potentials of Zr ⁺⁺	1205
Glass, dimensional changes caused in, by heating cycles.....	627	potentials of Zr ⁺⁺ and Zr ⁺⁺⁺	305
expansion and contraction of.....	627	Ionized Zr in the sun.....	1205
Glaze fit on ceramic bodies.....	97	Isbell, Horace S., A new crystalline calcium chloride compound of α -D-glucose and its rotation and mutarotation in aqueous solution.....	741
Goergen, S. M., R. F. Jackson and, Note on the individualities of anhydrofructose and difructose anhydride.....	753	—, The ring structure of mannose. The optical rotation of 4-glucido- α -mannose.....	1179
Gravitation, constant of.....	1243	Isomers of hexane from petroleum, the isolation of the.....	933
Greases, consistency of.....	83	J	
Gutta-percha, change of electrical properties of, and gutta-percha during storage under water.....	539	Jackson, Richard F., and Emma McDonald, The constant occurrence of nonreducing disaccharides in hydrolyzed inulin.....	1151
H		— and S. M. Goergen, Note on the individualities of anhydrofructose and difructose anhydride.....	733
Hall, E. L., Accurate method of measuring transmitted wave frequencies at 5,000 and 20,000 kilocycles per second.....	647	Jessup, R. S., Compressibility and thermal expansion of petroleum oils in the range 0° to 300° C.....	985
Harmonics, use of, in frequency measurements.....	647	Jordan, Louis, R. L. Dowdell, and J. V. McCrae, A study of the so-called "over-reduced" condition in molten steel.....	1123
Heat content of saturated steam.....	411, 481	— and William H. Swanger, The properties of pure nickel.....	1291
content of water.....	411, 481	Judd, Deane B., Precision of color temperature measurements under various observing conditions; a new color comparator for incandescent lamps.....	1161
flow in fibrous materials.....	973	K	
latent, of vaporization of water.....	411, 481	Kahlbaum, William, A. A. Peterson, and H. J. French, Flow characteristics of special Fe-Ni-Cr alloys and some steels at elevated temperatures.....	125
transfer through metal-enclosed insulating.....	385	Kennelly-Heaviside layer, measurement of heights of, by radio-echo method.....	1057
Heindl, R. A., and W. L. Pendergast, Fire clays, some fundamental properties at several temperatures.....	213	study of, for 4,045 and 8,650 kilocycles.....	1057
Henrickson, H. B., Thermometric lag of aircraft thermometers, thermographs, and barographs.....	695	Kiess, C. C., Terms of the arc and spark spectra of chromium.....	775
Hexane from petroleum, isolation of the isomus from.....	933	— and Harriet K. Kiess, The structure and the spectrum of singly ionized zirconium.....	1205
Heyl, Paul R., A redetermination of the constant gravitation.....	1243		
Hicks-Bruun, Mildred M., An improved Victor-Meyer molecular-weight apparatus.....	575		
—, and Johannes H. Bruun, The isolation of the isomers of hexane from petroleum.....	933		

	Page		Page
Kiess, C. C., and R. J. Lang, the structure of spectra of the doubly and trebly ionized zirconium.....	305	Method, null, frequency measurement.....	237
Kiess, Harriet K., and C. C. Kiess, The structure of the spectrum of singly ionized zirconium.....	1205	slide-wire, frequency measurement.....	237
Kline, G. M., and S. F. Acree, A study of the method for titrating aldose sugars with standard iodine and alkali.....	1063	Mineralogical changes caused by firing clays..	213
Krypton and xenon, interference measurements in the first spectra of.....	1041	Minerals, further study of paper coating, and adhesives.....	1189
L		Mohler, F. L., and C. Boeckner, Effects of gases on photo-ionization of caesium by line absorption.....	399
Lamps, color temperature of.....	1161	—, —, Photo-ionization of caesium vapor by absorption between the series lines.....	831
incandescent, color temperature of.....	1161	—, —, Photo-ionization of caesium by line absorption.....	51
Landing of aircraft in fog.....	897	Mold conditions of deoxidation as applied to steel castings.....	265
Lang, R. J., C. C. Kiess and, The structure of the spectra of doubly and trebly ionized zirconium.....	305	Molecular weight, deduction of formula from.....	867
Latent heat, calorimeter for.....	411, 481	Molecular weight of hydrocarbon mixtures..	867
Latent heat of vaporization of water.....	411, 481	Molecular weights, determination of.....	575
Lathe cutting tests with tungsten carbide tools.....	365	Monocular <i>v</i> binocular vision for comparing incandescent lamps.....	1161
Lead-bismuth alloys, properties of.....	1085	Monotype metal, sampling of.....	891
Lead-tin alloys, properties of.....	1085	Moore, H. R., and W. Blum, Conductivity and density of chronic acid solutions.....	255
Leather, adsorption of sulphuric acid by.....	1109	Mueller, E. F., and William F. Roesser, Measurement of surface temperatures.....	793
Light aluminum alloys, sampling of.....	891	Mutorotation of <i>d</i> -glucose.....	741
Line absorption, photo-ionization of caesium by.....	51	N	
Lloyd, D. B., G. E. Merritt, and A. Q. Tool, Dimensional changes caused in glass by heating cycles.....	627	Navigation of aircraft in fog by radio.....	897

Sugars, aldose, with standard iodine and alkali, a study of the method for titrating.....	1063	W	
optical rotation and the structure of.....	1179	Walkway materials, a method of measuring frictional coefficients of.....	329
Surface films, thickness of, as deduced from surface tension measurements.....	951	<i>Washburn, Edward W.</i> , On the determina- tion of the empirical formula of a hydro- carbon.....	867
Surface temperatures, measurement of.....	793	Water, enthalpy.....	411, 481
Surface tension as related to thickness of adsorbed films.....	951	heat content.....	411, 481
Surface tension of soap solutions.....	951	latent heat of vaporization.....	411, 481
<i>Swanger, Wm. H., and Louis Jordan</i> , The properties of pure nickel.....	1291	Wave lengths, Kr, Xe.....	1041
		Wave lengths of Zr ⁺	1205
T		Wear of bearings (bronze).....	349
<i>Taylor, Lauriston S.</i> , Absorption measure- ments of the X-ray general radiation.....	517	Wear, resistance of steels to.....	553
—, Apparatus for the measurement of high constant or rippled voltages.....	609	Wear tests of bearings bronzes.....	349
— and <i>George Singer</i> , An improved form of standard ionization chamber.....	507	Welded pedestals.....	803
Temperatures measurements.....	1309	Welded shelf-angle connections, strength of.....	781
Temperature of drying rolls.....	793	Welded steel pedestals.....	803
Temperature of heated rails.....	793	Welded subway column bases.....	619
Temperatures of moving surfaces.....	793	<i>Wenner, Frank, Edward H. Smith, and Floyd M. Soule</i> , Apparatus for the determina- tion aboard ship of the salinity of sea water by the electrical conductivity method.....	711
Temperatures, surface, measurement of.....	793	—, <i>G. W. Nussbaum, and B. C. Cruickshanks</i> , Note on the electrical resistance of con- tacts between nuts and bolts.....	757
Tensile strength, error of determination from Rockwell number.....	19	<i>Wensel, H. T., and William F. Roesser</i> , The freezing point of nickel as a fixed point on the International Temperature Scale.....	1309
Tensile strength of steel, relation to Brinell number.....	19	<i>Whittemore, H. L., A. H. Stang, and James H. Edwards</i> , Compressive tests of bases for subway columns.....	619
relation to Rockwell number.....	19	—, —, —, Stress distribution in welded steel pedestals.....	803
Tensile, surface, as related to thickness of adsorbed films.....	951	—, —, —, Strength of welded shelf-angle connections.....	781
Tension, surface, of soap solutions.....	951	Wires, wind pressure on.....	653
Terms of Zr II.....	1205	Wind pressure on circular cylinders and chimneys.....	653
Test sheets, fiber, preparation of.....	105		
Testing, friction coefficient of fabric.....	243		
Tests, accelerated, of asphalt.....	247		
column.....	619		
compressive, of bases for subway columns.....	619		
creep, at elevated temperatures.....	125		
lathe cutting, with tungsten carbide tools.....	365		
"long time" tensile, at elevated temper- atures.....	125		
wear, of bearing bronzes.....	349		
Textiles, friction coefficient test.....	243		
Theory of absorption measurements.....	517		
Thermal conduction.....	385		
Thermal expansion of fire clays.....	213		
Thermographs, thermometric lag of aircraft.....	695		

X	Page	Z	Page
Xenon, krypton and, interference measurements in the first spectra of.....	1041	Zinc-base die-casting alloys, sampling of.....	891
X-ray absorption measurements.....	517	Zirconium in the sun.....	1205
X-ray measurement.....	507	Zirconium spark spectra.....	305
X-ray method applied to a study of the constitution of Portland cement.....	813	Zirconium spark spectrum.....	1205
X-ray spectral energy distribution.....	517	Zirconium wave lengths.....	1205
